LAUSD Attendance Update

Every Day Matters. Every Student Counts.

Chronic Absenteeism Data

Students who miss 10% or more of school days

School Year	End of Year
2017–2018	15.7%
2018–2019	26% (work stoppage)
2019–2020	School Closures
2021–2022	44.9%
2022–2023	36.5%
2023–2024	31.0%
2024–2025	29.5%
2025–2026	27.7%

Chronic absenteeism has decreased
17.2 percentage points since 2021–2022.

Average Daily Attendance

The average percent of students present each day

School Year	End of Year
2017–2018	95.2%
2018–2019	92.7% (work stoppage)
2019–2020	School Closures
2021–2022	88.6%
2022–2023	90.6%
2023–2024	92.0%
2024–2025	92.2%
2025–2026	92.6%

Daily attendance has improved
4.0 percentage points since 2021–2022.

Thank you, families, for your partnership. Together, we can help every student show up, succeed, and shine! ✨

Region South CAASPP Literacy Update

Grades 3–5 ELA Distance from Standard (DFP)

KEY TAKEAWAY

Reported results show recovery after 2023, and preliminary 2026 results continue the positive direction.

Reported ELA DFP

Reported Region South results

School Year	DFP
2022	-126
2023	-130
2024	-116
2025	-118

DFP values closer to zero indicate stronger performance.

Trend Summary

Direction of Region South literacy performance

2026 Preliminary Trend:
Improving

Actual 2026 value remains under embargo

2026 preliminary CAASPP results remain embargoed and are shown here only as a generalized improvement trend.

Region South Math

Distance from Proficiency (DFP)

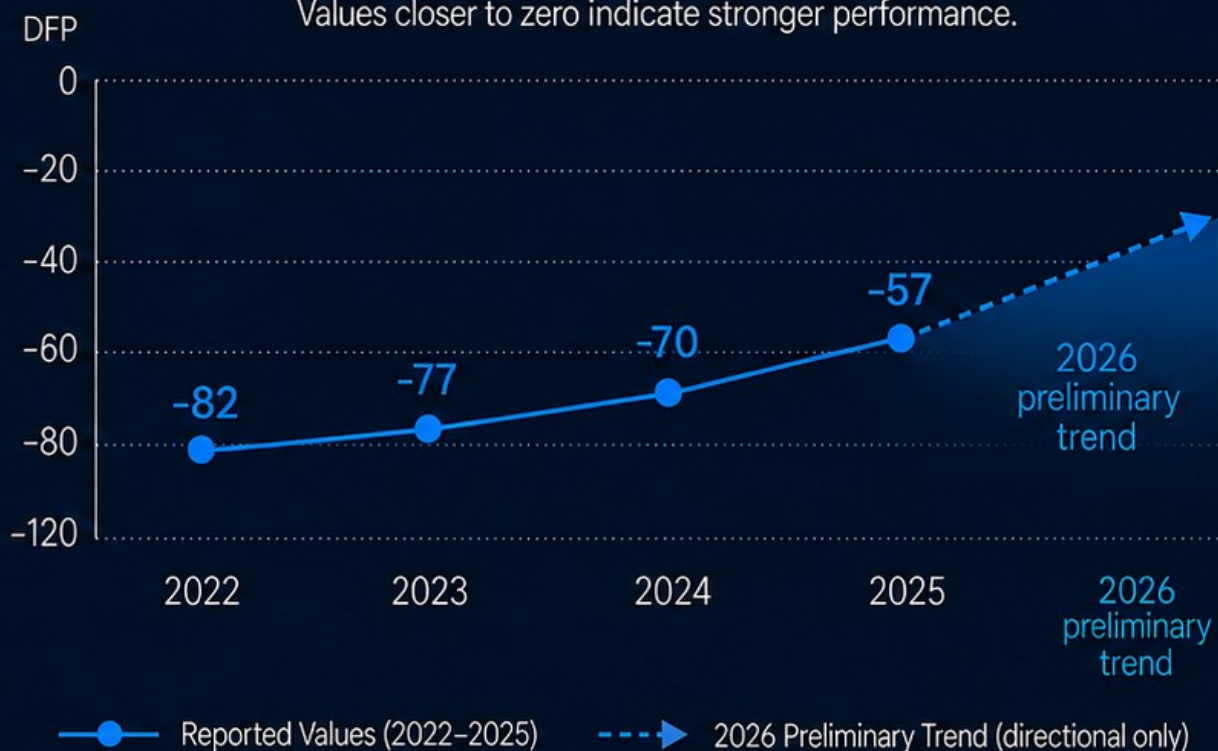

DFP = Distance from Proficiency
Higher is better; 0 = Proficiency.

Region South Math Distance from Proficiency (DFP) Over Time

Values closer to zero indicate stronger performance.

KEY TAKEAWAY

Math outcomes improved each year from 2022 to 2025.

Preliminary 2026 results indicate continued improvement.

Grade 11 Math Across LAUSD Regions

Region South shows the strongest recent recovery

All Students • Percent Proficient or Advanced (PoA) and Distance from Proficiency (DFP)

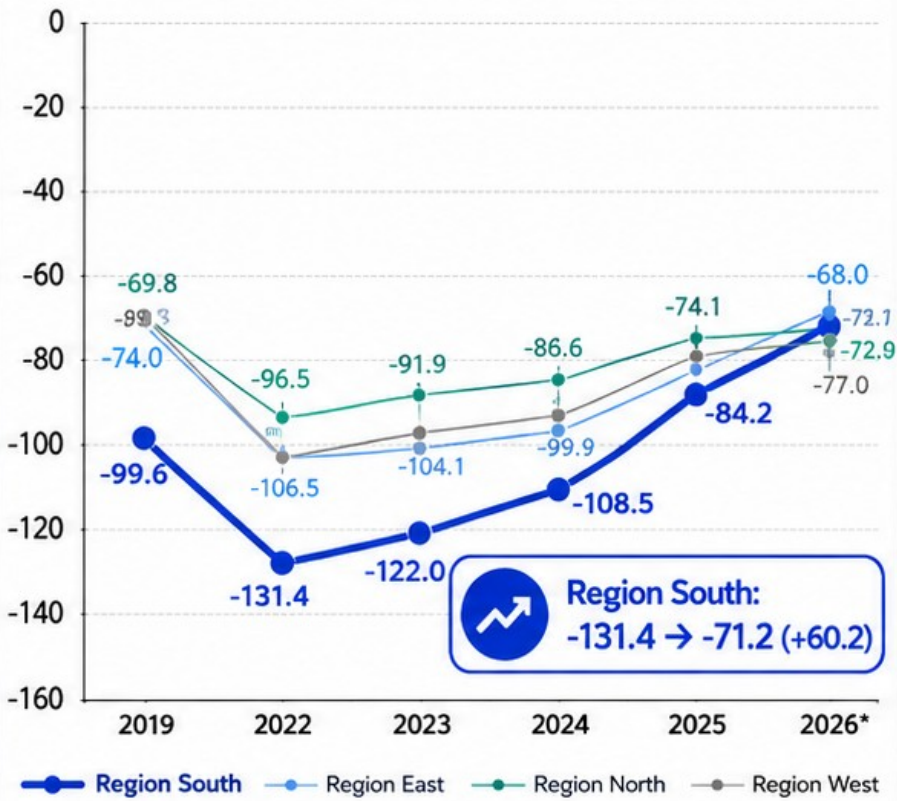

Percent Proficient or Advanced (PoA)

From lowest in 2022 to **HIGHEST** in 2026*

Distance from Proficiency (DFP)

Closer to zero = stronger performance

From 4th in 2019 to 2nd in 2026*

The Region South Story

Largest PoA gain:
+14.9 points
(2022 to 2026*)

Largest DFP improvement:
+60.2 points

Moved from lowest to
highest in PoA by 2026*

Moved from 4th to **2nd**
in DFP by 2026*

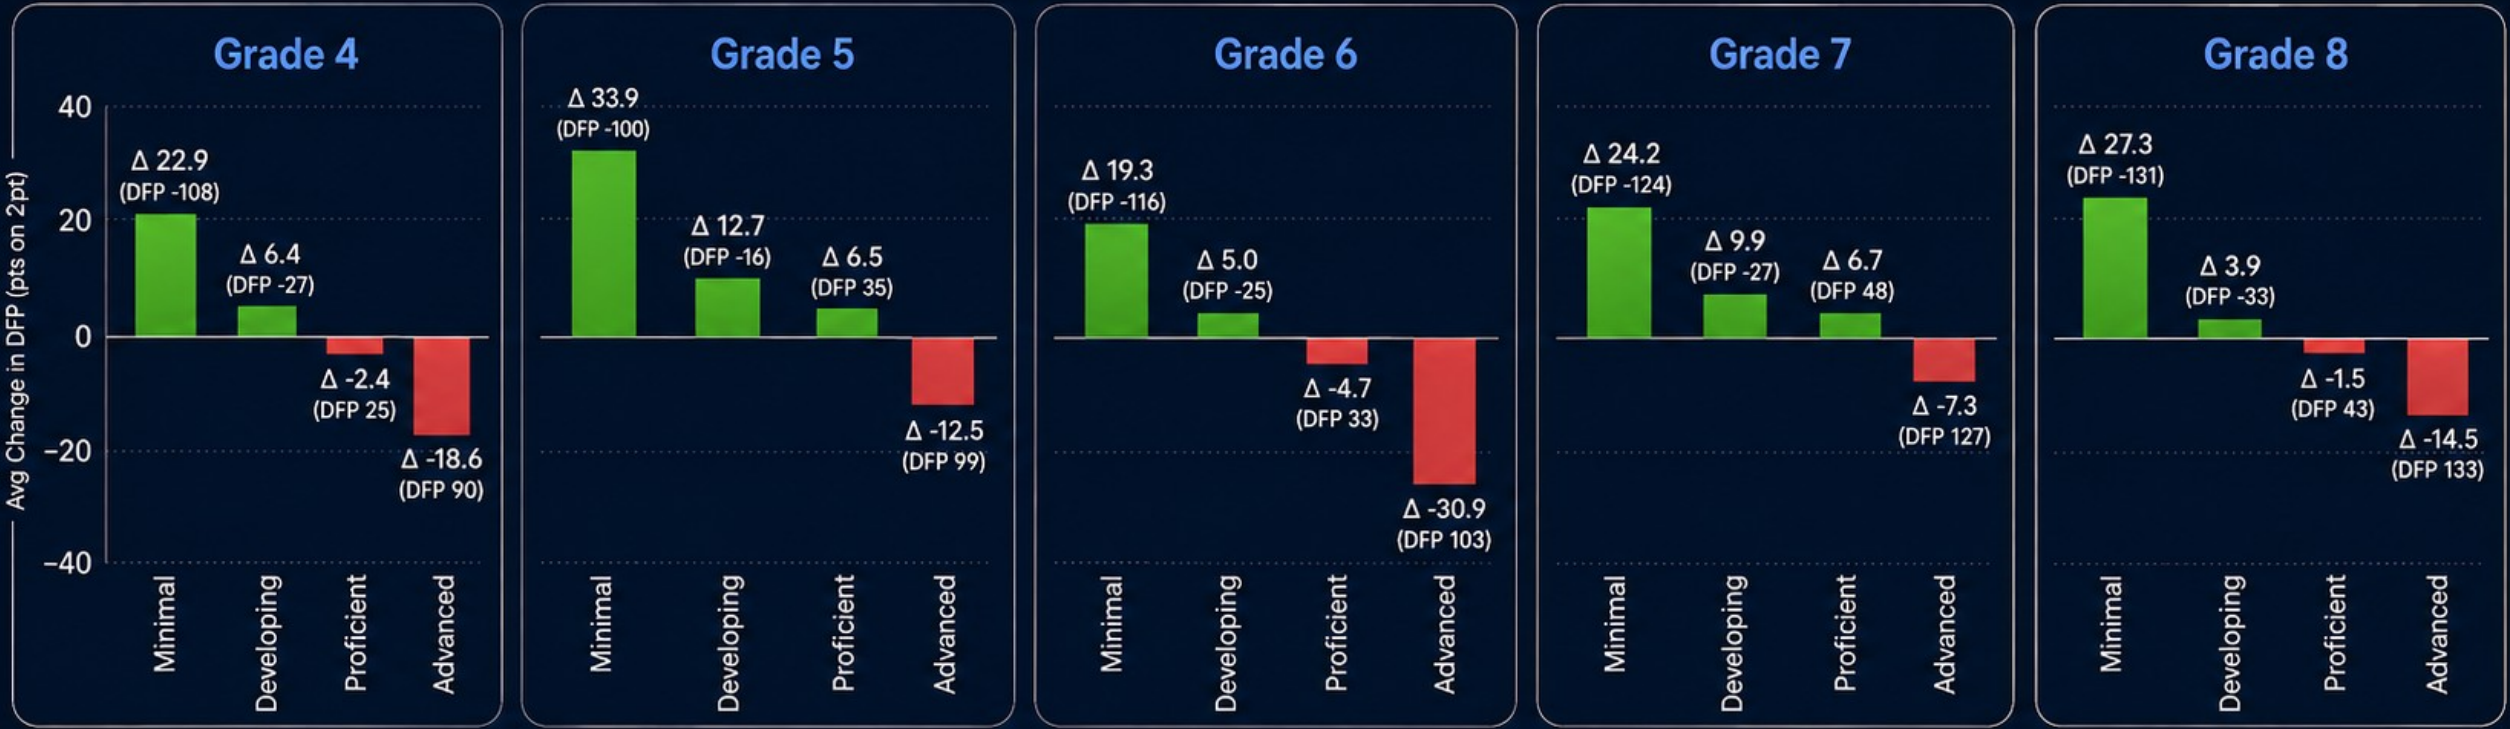

Region South started furthest behind, but it shows the **strongest recovery** and the **clearest upward momentum** among the four regions.

*2026 results shown as provided in the comparison tables.

Prelim SBA ELA: Average Cohort Change in DFP by 2025 Achievement Level

📖 Average cohort change in DFP from 2025 achievement levels across grades 4–8.

KEY TAKEAWAY

Across grades 4–8, students at the Minimal level posted the largest positive DFP changes. Developing students also showed gains. Proficient students were mostly flat to slightly negative, and Advanced students declined across every grade.

⬆️ **Largest gain:** Grade 5 Minimal (+33.9). ⬇️ **Largest decline:** Grade 6 Advanced (-30.9).

Prelim SBA ELA: Average Cohort Change in DFP by 2025 Achievement Level

 Average change in DFP from 2025 to 2026, grouped by 2025 achievement level, Grades 4–8.

KEY TAKEAWAY

Across grades 4–8, students at the Minimal level posted the largest positive DFP changes. Developing students also showed gains. Proficient students were mostly flat to slightly negative, and Advanced students declined across every grade.

Largest gain:
Grade 5 Minimal (+33.9)

Largest decline:
Grade 6 Advanced (-30.9)

Positive change indicates movement closer to proficiency.

Prelim SBA ELA: Average Cohort Change in DFP by 2025 Achievement Level

 Average change in DFP from 2025 to 2026, grouped by 2025 achievement level, Grades 4–8.

KEY TAKEAWAY

Across grades 4–8, students at the Minimal level posted the largest positive DFP changes. Developing students also showed gains. Proficient students were mostly flat to slightly negative, and Advanced students declined across every grade.

Largest gain:

Grade 5 Minimal (+33.9)

Largest decline:

Grade 6 Advanced (-30.9)

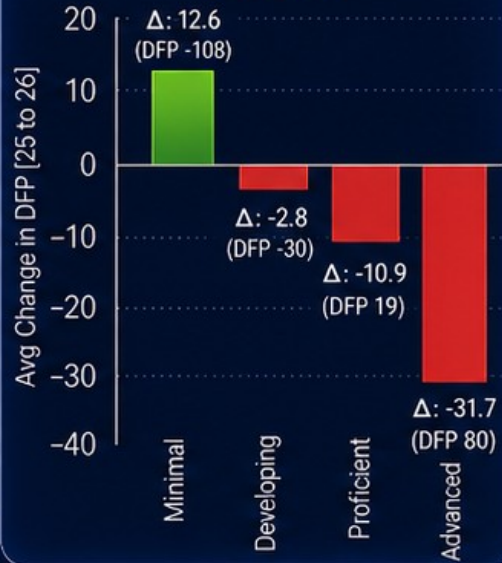

Positive change indicates movement closer to proficiency.

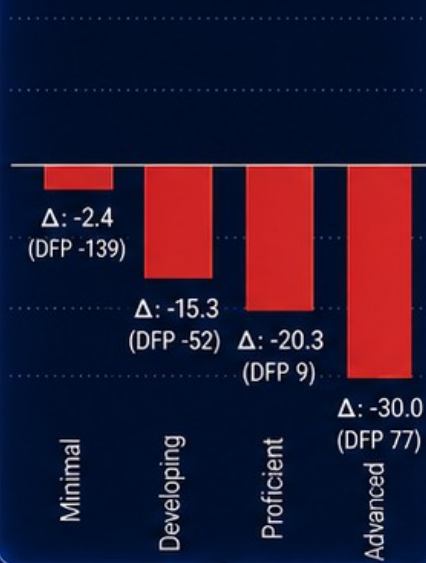

Prelim SBA MATH: Average Cohort Change in DFP by 2025 Achievement Level

 Average change in DFP from 2025 to 2026, grouped by 2025 achievement level, Grades 4–8.

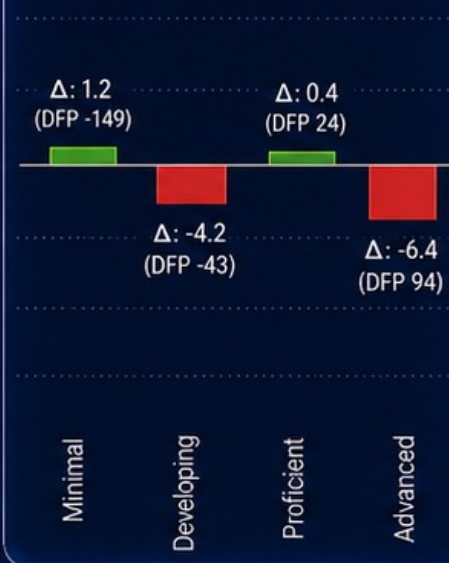

Grade 4

Grade 5

Grade 6

Grade 7

Grade 8

KEY TAKEAWAY

Math cohort changes were mixed across grades 4–8. Minimal students posted the strongest gains overall, especially in Grades 4, 7, and 8. Advanced students declined in most grades, while Grade 8 showed a more positive pattern with gains for Minimal, Proficient, and Advanced students.

Largest gain:
Grade 7 Minimal (+16.1)

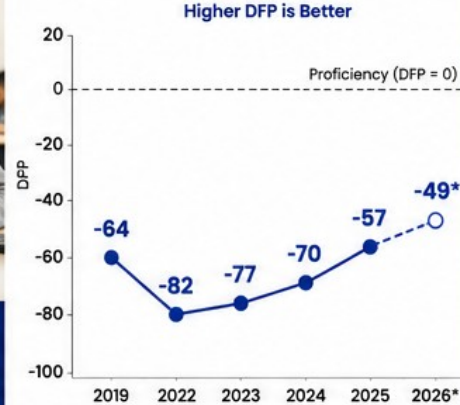

Largest decline:
Grade 4 Advanced (-31.7)
